

A red and white motor yacht is shown from a side profile, floating on a dark blue body of water. The yacht has a white upper hull and a red lower hull, with a white cabin and a red stripe. It features a mast with various antennas and a small radar dome. In the background, a densely populated coastal town is built into a hillside, with many buildings and a few trees. The sky is a pale, hazy blue.

OVERVIEW

Tempest WS is a labor of love, an exquisite blend of elegance and nostalgia, embodying the pinnacle of classic French naval architecture.

Originally built as a French coast guard patrol vessel by the renowned Chantier Naval de l'Esterel, she boasts a beautiful triple planked mahogany hull that catches the eye wherever she sails. Designed to patrol at over 20 knots in adverse weather, she combines French sophistication with military-grade efficiency.

Completely refitted in 2002 under the visionary guidance of architect André Mauric, Tempest WS has been reborn, marrying her original sea-keeping qualities with the comforts and style of a modern motor yacht. Her interior accommodation is surprisingly comfortable and in "as new" condition, making her a perfect yacht for cruising with both comfort and sophistication.

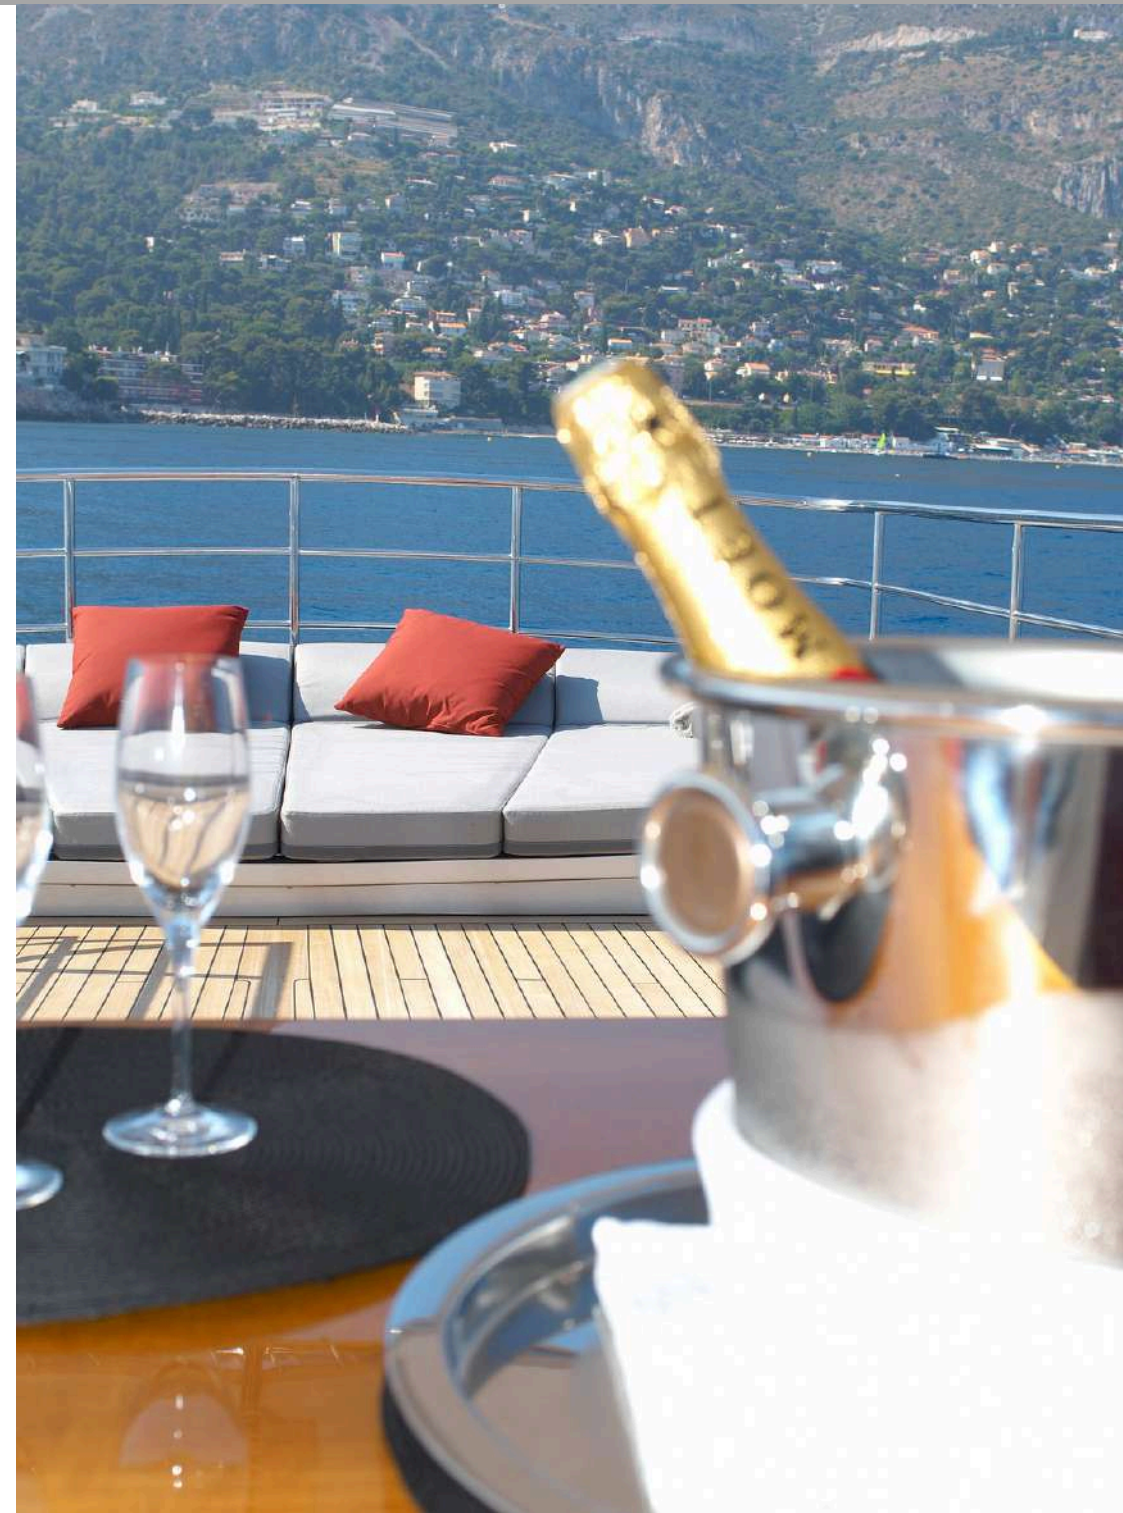

Consistently maintained to the highest standards, Tempest WS is a modern vessel with the charm of a classic yacht, representing a unique piece of maritime artistry. She is the ideal size for comfortably cruising the Mediterranean and is fully commercial ready, making her a successful charter vessel. This true gentleman's yacht is one-of-a-kind and must be inspected to be fully appreciated.
